

In the future we may live in space, under the sea or in flying machines.

**If you could live anywhere you wanted where would you live? Draw that place:**

If you were shipwrecked...

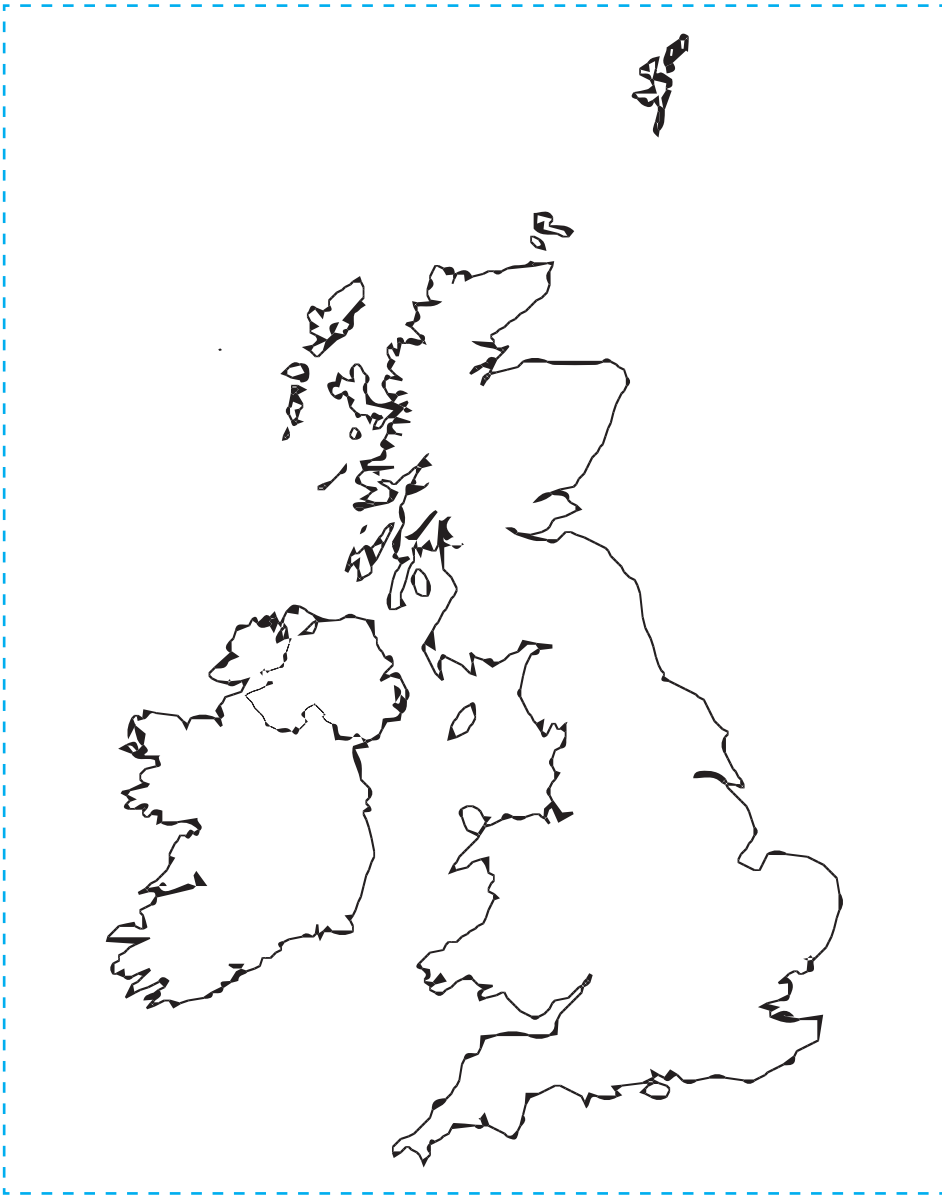

Would you rather live on a busy island with lots of people or have the island to yourself?

If you could only take one thing with you, what would it be?

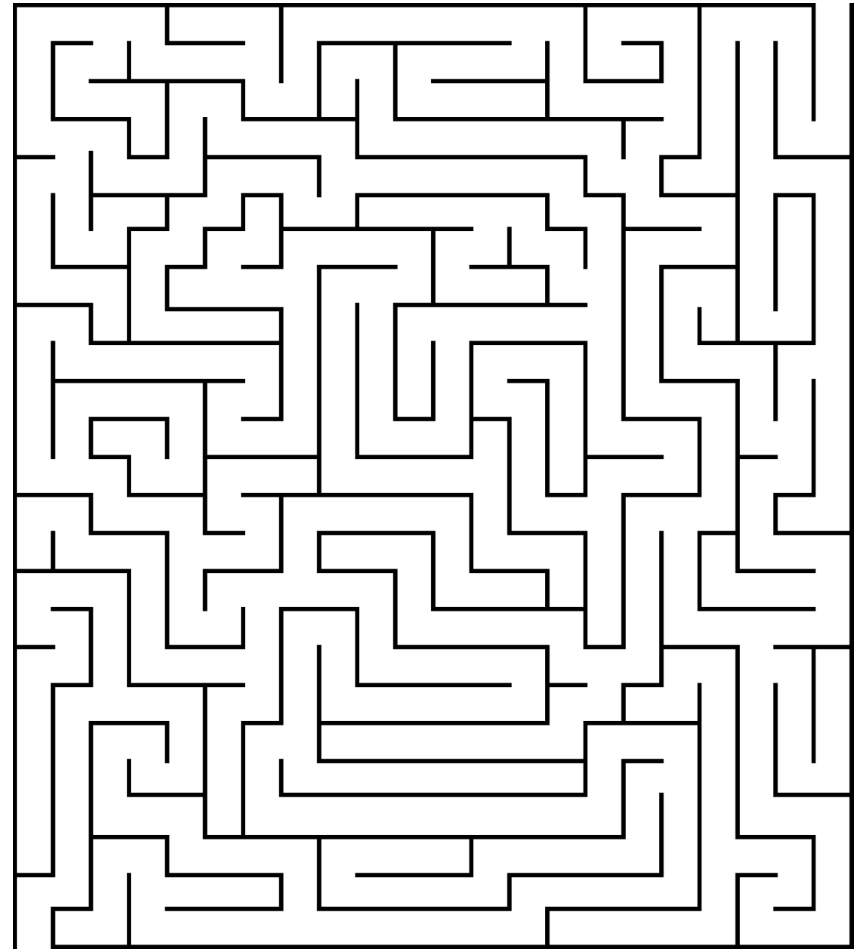

**Draw your island:**

Using the map below mark places you have been to and write down your memories of those places. Think about places you have connections to; places you used to live, been on holiday to or where other family live.

Find your way through this maze from top to bottom.

If you had to go into a real maze that will take a whole week to get through who would you want to come with you?
